## Description:

The product of many years of deep research, this is a gripping and comprehensive collection of sightings of mysterious creatures in the waters in and around the British Isles. There is a reference in Genesis to God creating the great sea monsters and throughout the Old Testament to the leviathan and, undoubtedly, sea-faring folk did witness giant creatures in the seas and oceans. Paul Harrison records and analyses countless

sightings of unidentifiable monsters in the British Isles in the hope of bringing us a small step closer to finding the solution to this age-old mystery.

Well written and educational as well as satisfying to my curiosity. Ill read it many times and enjoy it each time.
