Description:

Cant say its any better or worse then other books using the same ideas. It is easy to read, there are a few ideas I have used & they work. There are many more that should be included (like keeping out small ants from entering your house by pouring salt in the doorways they enter thru) but arent. I was disappointed that most of the book has nothing to do with kitchen tips. Its mostly filled with semi-useful ideas from around the house. Some (like how to take pictures) is just totally out of place. But overall I feel it is a useful addition to the household if you havent got more than one book of this sort. The print is large & convenient for middle age eyes too.

Bottom Lines Best-Ever Kitchen Secrets in pdf books

## Bottom Lines Best-Ever Kitchen Secrets

This book has provided an invaluable springboard for important conversations with young students at "Aikido in the Schools" in New York City. We also secret reading Llama Llama books in Spanish and English too. She is looking line to starting school, applying to colleges, dancing again, and all the other things that go with high school.
