Description:

The New York Times Bestseller--Based on the Diet Ranked #1 Best Diet Overall by US NEWS & WORLD REPORT--for 8 Years in a Row!

The only diet I have ever tried. At 69 years old, I needed to eat healthier. This is a no nonsense plan. Basically eat 5 vegetables, 4 fruit, only whole grains, low or no fat dairy, eggs & nuts are part of it, meat or fish in reasonable portions, DAILY. The lower salt was a shock on how much salt I was getting when I thought I was eating low salt! No processed sugar, it all comes in the fruit. I exercise daily. All of this is with a well balanced rotation of different daily fresh veggies and fruit. I do not normally feel hungry, when I do I snack on veggies or fruit, my problem was always grazing. I never leave the house with out fruit and veggies. This diet is recommended by all of the major health associations, (heart, kidney, cancer, diabetic) look it up on the health site, the only one I might add. I am shocked that I was able to cut sugar cold, as well as in just about one week, food I previously ate regularly tasted so salty, I could not possibly eat it because it was so over salted. Those two things were a big surprise to me, and maybe the biggest benefit of the diet. This is a life style change if you do not currently eat purely healthy food in proper quantities and no junk food as well as exercise regularly now. It is great if you have the self control required to make it work long term. I have lost 30 pounds and have 15 to go, I have never felt so good. My goal is to reach my target weigh in a couple months and stay withing 5 pounds of my goal 2 years plus from now.
