Description:

The role of mom is often described as the most important job in the world. Rightly so, for so much is at stake during children's early years and

mothers are central in shaping character and personhood. However, when the going gets tough (the endless diapers, the continual messes, the endless conflict resolution, the complete lack of personal time, etc.), mothers are often tempted to quit their "mom job". While few would endorse an outright abandonment of motherhood, others may recommend that a woman treat her role as secondary to personal desires in order to combat feelings of discouragement and/or unfulfillment. The enemy has laid intentional traps cleverly designed to discourage and redirect a woman towards self rather than family. Mothers need to know how to recognize these traps . . . and avoid them. *Be the Mom: Overcome Attitude Traps and Enjoy Your Kids* explores and validates the life of a mother who makes her family a priority and introduces the reader to seven Mom Traps that may be preventing them from a full, joy-filled life.

I was hoping for encouragement for the challenging season of life (having two toddlers)...there were a few nuggets, but the book as a whole was what I expected. I also didn't love the author's super-casual, borderline sarcastic writing style.
