Description:

In this “masterwork of an authentic spirit person” (Thomas Berry), Buddhist teacher and anthropologist Joan Halifax Roshi delves into “the fruitful darkness”—the shadow side of being, found in the root truths of Native religions, the fecundity of nature, and the stillness of meditation. In this

highly personal and insightful odyssey of the heart and mind, she encounters Tibetan Buddhist meditators, Mexican shamans, and Native American elders, among others. In rapt prose, she recounts her explorations—from Japanese Zen meditation to hallucinogenic plants, from the Dogon people of Mali to the Mayan rain forest, all the while creating an adventure of the spirit and a feast of wisdom old and new” (Peter Matthiessen). Halifax believes that deep ecology (which attempts to fuse environmental awareness with spiritual values) works in tandem with Buddhism and shamanism to discover “the interconnectedness of all life,” and to regain life’s sacredness. Grove Press is proud to reissue this important work by one of Buddhism’s leading contemporary teachers.

I was brought here as a fan of musician Trevor Hall and his recent release entitled *The Fruitful Darkness*, inspired by Joan Halifax’s book regarding spiritual self-discovery. An inspirational read that, for me, both helps me understand the concept behind Trevor Hall’s album and see how an inspirational journey such as Joan’s can reshape our bodies, minds and souls to embrace that which is known as the *Fruitful Darkness*. Relive Joan’s many journeys and discover the inspiration for yourself. Highly recommend!
