Description:

Winner of two INDIEFAB prizes: Gold for Literary Fiction and Bronze for Historical Fiction Readers' Favorite Gold medal for Literary fiction Spanning a century and three continents, Even in Darkness tells the story of Kläre Kohler, whose early years as a beloved daughter of a prosperous German-Jewish family hardly anticipate the harrowing life she faces as an adult- a saga of family, lovers, two world wars, a concentration camp, and sacrifice. Based on a true story, Even in Darkness highlights Kläre's reinvention as she faces the destruction of life as she knew it, and traces her path to survival, wisdom, and unexpected love.

This is a magnificent tribute by Barbara Stark-Nemon to her amazing real-life aunt Klare. I'll admit I had a difficult time with the first several chapters because I knew that the Holocaust lay ahead, so it was almost unbearable "getting to know" Klare and her close-knit loving family, but I reminded myself that this is a story of survival, and continued on. I'm glad I did. Klare's story was inspiring and uplifting. From the first page where "small" but significant acts of meanness portend the harrowing evil ahead, Klare took care of her family and many others with a loving, kind and generous heart. Her unusual training as a massage therapist gave her some unexpected advantages during the worst years, but to be able to use those gifts the way she did must have taken other-worldly strength of mind and heart. These heart-rending scenes are reminiscent of *Those Who Save Us*, another incredible book. I've read several books about the Holocaust, but this novel begins more than two decades before it started. As a non-Jew, I never before considered that many German Jews bravely fought for Germany in WWI, only to be then persecuted and exterminated by their own countrymen during WWII. In keeping her own light intact through the darkness and beyond, Klare shines a light for all.
